

From the Student Graduation and Transition Planner Program

What Are My Next Steps and Why?

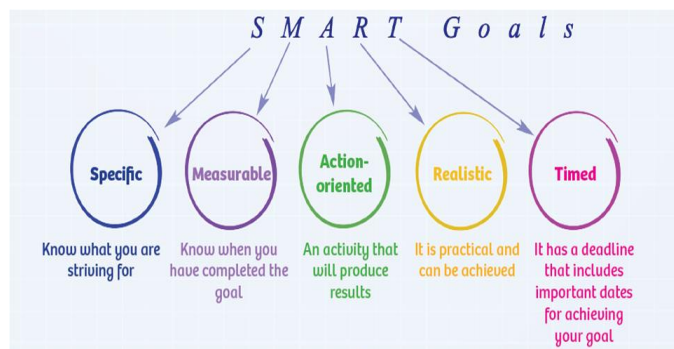

Choosing courses and experiences that align with your child's interests will help them set goals to create the future that they want. Ensure that their choices and actions are guided by what's really important to them.

Setting Priorities

What do they need in their life? It is important that they set priorities about what sort of learning, wellness, occupation, and financial expectations they hold. Evaluating priorities is an essential piece of the puzzle towards choosing a next step and they need to be honest with themselves. Encourage your child to set priorities that will help them set goals towards their next step. Check out **Setting Priorities** under *What Are My Next Steps and Why?* at www.myplanpei.ca (password: myplan)

Goal Setting

Setting goals helps your child identify, organize, and prioritize things they would like to accomplish. Help your child to set SMART goals: goals that are specific, measurable, action-oriented, realistic, and timed. Setting SMART goals helps your child become focused on what they want to achieve and how they are going to get there.

Check out the **Goal Setting** feature in myBlueprint to help your child set academic, financial, and wellness goals. www.myblueprint.ca/pei
