

Guidelines

Student's School Supply Lists and Fees

The approved student supply lists for the Public School Branch were developed through consultation with teachers and administrators. The following guidelines help to clarify some of our schools' practices in relation to student supply lists and fees.

1. Teachers who choose to purchase supplies for parents cannot exceed a fee request of \$40.00.
2. Parents always have the right to purchase their own supply items.
3. Teachers cannot make additions to the approved supply list but they can remove items and they can add amounts/colors/brands to each item (i.e. 3 blue duo-tangs).
4. The items listed under "Additional Requirements" are not included in the school fee costs.
5. Schools that charge parents for school agendas can do so outside of the school supply lists and set fees.
6. Kleenex will be provided by the Board to Grades K-6.
